Alexander Lvovich Lisovsky  CEO  Export
2	Ltd " MADIYO TEKSTIL"  Russia, Ivanovo	Textile company MADIYO DEKNA has been operating on the Russian market for 14 years already. Our production policy determines optimal combination of price and quality, wide range of knitted fabric, constantly update of the product line. This allowed us to firmly take our place on the list of leaders of the textile products market. The supply's geography of a knitted fabric, manufactured by MADIYO DEKNA, covers the whole Russia and many European countries. We use raw materials only of a high quality from the best providers of Uzbekistan and Russia. Knitted fabric, produced by MADIYO TEKSTIL, is manufactured on modern European equipment, using the newest European dyes, and fits all the European standards. During the manufacturing of the fabric the quality control is used at the input and output of the finished product.	Recep Sümer  CEO  Export
3	JSC «VSRI «VEGA»  Russia, Voronezh	Joint stock company «Voronezh scientific- research Institute «VEGA» (JSC «VSRI «VEGA») is a modern enterprise with powerful scientific and technical, industrial and personnel potential, developed infrastructure and a full scientific and production cycle. It was established to work on development and introduction of radio communication systems for special purposes. We have rich experience in development, manufacture, putting into service and maintenance of the systems, software-hardware complexes and means of mobile radio special and professional purposes.	Georgy Valentinovich Nekhoroshev  Deputy General Director  Export, Services
4	Ltd Group of companies "Lesnoy Ural"  Russia, Yekaterinburg	"Lesnoy Ural" is a medium-sized enterprise established in 2004. The main activities are logging, sawmilling and provision of services to the population that lives in the city through household equipment. In 2008, the company purchased new sawmills equipment, the use of which allowed the company to significantly improve the quantitative yield of sawn timber, and most importantly to create high quality products that are in high demand among	Sergey Nikolaevich Antonenkov  Chairman of the Board of Founders  Export

		buyers.	
5	« United Energy Company JSC»  Russia, Moscow	<p>« United Energy Company JSC» (JSC «UEC») is one of the largest electric grid companies in Moscow. JSC «UEC» provides transmission and distribution of electricity, carries out technological connection to consumers, builds new electric networks. The company's property complex includes 26 supply centers of 110-220 kV (total installed capacity 8058 MVA), 3160 6-20/0.4 kV transformer substations and 6-20 kV distribution points, and more than 37 000 km of transmission lines with voltage class of 0.4-220 kV. Since January 1, 2015, JSC «UEC» operates outdoor lighting and architectural and artistic illumination of Moscow. The company has the status of a reliable partner on the Moscow energy market. For example, JSC «UEC» provides electricity to the new Moscow metro stations, the international airport Vnukovo, the Moscow International Business Centre (MIBC), the renovated store building Children's World, the ice rink on the territory of the VDNH, the Moskvarium Center - Europe's largest oceanography and marine biology center, etc. JSC «UEC» uses modern equipment and guarantees the reliability of energy supply to consumers. The priority direction in the investment program of JSC «UEC» is the creation of a branched 20 kV electrical network. The advantage of 20 kV networks (in comparison with the prevailing 6 and 10 kV networks in the city) is the possibility of transmitting electric power for larger distances with less loss. In its activity, JSC «UEC» seeks to improve the quality and reliability of electricity supply to consumers, reduce the terms of technological connection of facilities to the electric grid infrastructure and create a reserve of capacity necessary for the further development of Moscow.</p>	<p>Oksana Nikolaevna Mozgaleva</p> <p>Deputy General Director</p> <p>Services</p>
